

# Winter Camp

## Merit Badge Schedule and Course Requirements for Registration

**It is the intent of Circle Ten Winter Camp to offer a Merit Badge Program as part of the overall Winter Camp Experience and not to be used as a MERIT BADGE UNIVERSITY.** Not all merit badges offered are planned to be completed at camp. However, in an attempt to improve their overall quality and to offer more merit badges that can be properly completed at Camp, a **"lab period" or "lab periods" may need to be attended by your scouts.** The merit badges that require a lab will present the material or required skill during the morning session. Your Scout will need to use his free time to learn this information and then be tested and signed off only at the lab periods. Labs are offered from 1:30 - 3:30 at the morning course location.

Upon registering your Scouts, please pay close attention for this additional information as well as other pre-registration requirements such as rank and/or age. It is our experience that some merit badge course material is best suited for older or higher ranked Scouts. Younger Scouts or lower ranked Scouts can greatly detract from these merit badge courses; therefore, addition of younger or lower ranked Scouts to these classes will rest fully with Winter Camp Staff and class capacity. **Thank you for your cooperation.**

\*\*\*\*A personal notebook with paper and pen or pencil are needed for ALL classes\*\*\*\*

<u>Merit Badge</u>	<u>Location</u>	<u>Description &amp; registration requirements</u>
